

Dropbox Announces Fiscal 2019 Third Quarter Results

Revenue of \$428.2 Million, Up 19% Year-Over-Year
Net Cash Provided by Operating Activities of \$149.7 Million and Free Cash Flow of \$102.5 Million

SAN FRANCISCO, Calif. - November 7, 2019 - Dropbox, Inc. (NASDAQ: DBX), the world's first smart workspace, today announced financial results for its third fiscal quarter ended September 30, 2019.

“We had a strong Q3 highlighted by 19% top line growth and margin expansion.” said Dropbox Co-founder and Chief Executive Officer Drew Houston. “We’re excited about the early momentum we’ve seen with our new desktop app — millions are already using it since it was made generally available on September 25. Together with the launch of Dropbox Spaces, we’re making great progress towards building the world’s first smart workspace where people can focus on the work that matters.”

Third Quarter Fiscal 2019 Results

- Total revenue was \$428.2 million, an increase of 19% from the same period last year.
- Paying users totaled 14.0 million, as compared to 12.3 million for the same period last year. Average revenue per paying user was \$123.15, as compared to \$118.60 for the same period last year.

Use of Non-GAAP Financial Measures

Reconciliations of non-GAAP financial measures to the most directly comparable financial results as determined in accordance with GAAP are included at the end of this press release following the accompanying financial data. For a description of these non-GAAP financial measures, including the reasons management uses each measure, please see the section of the tables titled "About Non-GAAP Financial Measures."

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 including, among other things, statements regarding Dropbox's strategies and new products and features, future financial and operational performance, the demand for and engagement with our platform and product features, and the benefits from new product experiences and acquisitions. Words such as "believe," "may," "will," "estimate," "continue," "anticipate," "intend," "expect," "plans," and similar expressions are intended to identify forward-looking statements. Dropbox has based these forward-looking statements largely on its current expectations and projections about future events and financial trends that the Company believes may affect its business, financial condition, and results of operations. These forward-looking statements speak only as of the date of this press release and are subject to risks, uncertainties, and assumptions including, but not limited to: (i) our ability to retain and upgrade paying users; (ii) our ability to attract new users or convert registered users to paying users; (iii) our revenue growth rate; (iv) our history of net losses; (v) our liability for any unauthorized access to our data or our users' content, including through privacy and data security breaches; (vi) significant disruption of service on our platform or loss of content; (vii) any decline in demand for our platform or for content collaboration solutions in general; (viii) changes in the interoperability of our platform across devices, operating systems, and third-party applications that we do not control; (ix) competition in our markets; (x) our ability to respond to rapid technological changes, extend our platform, or develop new features; (xi) our ability to manage our growth or plan for future growth; (xii) our acquisition of other businesses and the potential of such acquisitions to require significant management attention, disrupt our business, or dilute stockholder value; and (xiii) the dual class structure of our common stock and its effect of concentrating voting control with certain stockholders who held our capital stock prior to the completion of our initial public offering. Further information on risks that could affect Dropbox's results is included in our filings with the Securities and Exchange Commission ("SEC"), including our

Form 10-Q for the quarter ended June 30, 2019. Additional information will be made available in our quarterly report on Form 10-Q and other future reports that we may file with the SEC from time to time, which could cause actual results to vary from expectations. If the risks materialize or assumptions prove incorrect, actual results could differ materially from the results implied by these forward-looking statements. Dropbox assumes no obligation to, and does not currently intend to, update any such forward-looking statements after the date of this release, except as required by applicable law.

About Non-GAAP Financial Measures

To provide investors and others with additional information regarding Dropbox's results, we have disclosed the following non-GAAP financial measures: non-GAAP cost of revenue, non-GAAP gross profit, non-GAAP operating expenses (including research and development, sales and marketing and general and administrative), non-GAAP income from operations, non-GAAP net income, free cash flow ("FCF") and non-GAAP diluted net income per share. Dropbox has provided a reconciliation of each non-GAAP financial measure used in this earnings release to the most directly comparable GAAP financial measure. Non-GAAP cost of revenue, gross profit, operating expenses, income from operations, and net income differs from GAAP in that it excludes stock-based compensation expense, amortization of acquired intangible assets, other acquisition-related expenses, which include third-party diligence costs and compensation expense for key acquired personnel, and employer payroll tax expense relating to the release of two-tier RSUs in connection with our initial public offering during the six months ended June 30, 2018. Non-GAAP net income also excludes net gains and losses on equity investments, and includes the income tax effect of the aforementioned adjustments, including the tax effects of acquired intangible assets. FCF differs from GAAP net cash provided by operating activities in that it treats capital expenditures as a reduction to net cash provided by operating activities. Free cash flow margin is calculated as FCF divided by revenue. Non-GAAP diluted net income per share differs from GAAP diluted net loss per share in that the numerator utilizes the non-GAAP net income as described above, and the weighted-average shares used in the computation include certain shares that are excluded from the GAAP diluted net loss per share calculation because their effect would have been anti-dilutive.

Dropbox's management uses these non-GAAP financial measures to understand and compare operating results across accounting periods, for internal budgeting and forecasting purposes, for short and long-term operating plans, and to evaluate Dropbox's financial performance and the ability to generate cash from operations. Management believes these non-GAAP financial measures reflect Dropbox's ongoing business in a manner that allows for meaningful period-to-period comparisons and analysis of trends in Dropbox's business, as they exclude expenses that are not reflective of ongoing operating results. Management also believes that these non-GAAP financial measures provide useful supplemental information to investors and others in understanding and evaluating Dropbox's operating results and future prospects in the same manner as management and in comparing financial results across accounting periods and to those of peer companies.

We believe that the non-GAAP financial measures, non-GAAP cost of revenue, gross profit, operating expenses, income from operations, net income, and diluted net income per share are meaningful to investors because they help identify underlying trends in our business that could otherwise be masked by the effect of the expenses that we exclude.

We believe that FCF is an indicator of our liquidity over the long term, and provides useful information regarding cash provided by operating activities and cash used for investments in property and equipment required to maintain and grow our business. FCF is presented for supplemental informational purposes only and should not be considered a substitute for financial information presented in accordance with GAAP. FCF has limitations as an analytical tool, and it should not be considered in isolation or as a substitute for analysis of other GAAP financial measures, such as net cash provided by operating activities. Some of the limitations of FCF are that FCF does not reflect our future contractual commitments, excludes investments made to acquire assets under capital leases, includes capital expenditures related to our new corporate headquarters, and may be calculated differently by other companies in our industry, limiting its usefulness as a comparative measure.

The use of non-GAAP cost of revenue, gross profit, operating expenses, income from operations, net income, free cash flow, and diluted net income per share measures has certain limitations as they do not reflect all items of income, expense, and cash expenditures, as applicable, that affect Dropbox's operations. Dropbox compensates for these limitations by reconciling the non-GAAP financial measures to the most comparable GAAP financial measures. Additionally, we have provided supplemental disclosures in our reconciliation of net cash provided by operating activities to free cash flow to include capital expenditures related to our new corporate headquarters, net of tenant improvement allowances. These non-GAAP financial measures should be considered in addition to, not as a substitute for or in isolation from, measures prepared in accordance with GAAP. Further, these non-GAAP measures may differ from the non-GAAP information used by other companies, including peer companies, and therefore comparability may be limited. Management encourages investors and others to review Dropbox's financial information in its entirety and not rely on a single financial measure.
